Product Datasheet

Human GPIIb/IIIa(Glycoprotein IIb/IIIa) ELISA Kit EBT-ELK1688

Article Name	Human GPIIb/IIIa(Glycoprotein IIb/IIIa) ELISA Kit
Biozol Catalog Number	EBT-ELK1688
Supplier Catalog Number	ELK1688
Alternative Catalog Number	EBT-ELK1688-96, EBT-ELK1688-48, EBT-ELK1688-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.058 ng/mL
Samples	Tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: CD & Adhesion molecule, Metabolic pathway, Cardiovascular biology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human GPIIb/IIIa. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human GPIIb/IIIa. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human GPIIb/IIIa, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human GPIIb/IIIa in the samples is then determined by comparing the OD of the samples to the standard curve
