### Human GT(Gastrin) ELISA Kit EBT-ELK1814

Article Name	Human GT(Gastrin) ELISA Kit
Biozol Catalog Number	EBT-ELK1814
Supplier Catalog Number	ELK1814
Alternative Catalog Number	EBT-ELK1814-96, EBT-ELK1814-48, EBT-ELK1814-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	4.21 pg/mL
UniProt	<a href="#">P01350</a>
Samples	Serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Metabolic pathway, Endocrinology, Gastroenterology, Hormone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human GT. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human GT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human GT in the samples is then determined by comparing the OD of the samples to the standard curve
