## Product Datasheet

### Human LAMb1(Laminin Beta 1) Microsample ELISA Kit EBT-ELK2280MS

Article Name	Human LAMb1(Laminin Beta 1) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK2280MS
Supplier Catalog Number	ELK2280MS
Alternative Catalog Number	EBT-ELK2280MS-96, EBT-ELK2280MS-48, EBT-ELK2280MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	2000 pg/mL
Range	31.25-2000 pg/mL
Sensitivity	14.3 pg/mL
UniProt	<a href="#">P07942</a>
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human LAMb1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human LAMb1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human LAMb1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human LAMb1 in the samples is then determined by comparing the OD of the samples to the standard curve
