## Product Datasheet

### Human MYL2(Myosin Light Chain 2, Regulatory, Cardiac) ELISA Kit EBT-ELK2290

Article Name	Human MYL2(Myosin Light Chain 2, Regulatory, Cardiac) ELISA Kit
Biozol Catalog Number	EBT-ELK2290
Supplier Catalog Number	ELK2290
Alternative Catalog Number	EBT-ELK2290-96, EBT-ELK2290-48, EBT-ELK2290-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	500 pg/mL
Range	7.82-500 pg/mL
Sensitivity	3.2 pg/mL
UniProt	<a href="#">P10916</a>
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway, Cardiovascular biology, Bone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human MYL2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human MYL2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human MYL2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human MYL2 in the samples is then determined by comparing the OD of the samples to the standard curve
