Product Datasheet

Mouse LH(Luteinizing Hormone) ELISA Kit EBT-ELK2368

Article Name	Mouse LH(Luteinizing Hormone) ELISA Kit
Biozol Catalog Number	EBT-ELK2368
Supplier Catalog Number	ELK2368
Alternative Catalog Number	EBT-ELK2368-96, EBT-ELK2368-48, EBT-ELK2368-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	30 mIU/mL
Range	0.47-30 mIU/mL
Sensitivity	0.27 mIU/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Endocrinology, Reproductive science, Hormone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse LH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse LH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse LH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse LH in the samples is then determined by comparing the OD of the samples to the standard curve
