Product Datasheet

Human I-PTH(IntactParathormone) Microsample ELISA Kit EBT-ELK2427MS

Article Name	Human I-PTH(IntactParathormone) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK2427MS
Supplier Catalog Number	ELK2427MS
Alternative Catalog Number	EBT-ELK2427MS-96, EBT-ELK2427MS-48, EBT-ELK2427MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	4.81 pg/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway, Endocrinology, Hormone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human I-PTH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human I-PTH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human I-PTH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human I-PTH in the samples is then determined by comparing the OD of the samples to the standard curve
