Mouse TGF α (Transforming Growth Factor Alpha) Microsample ELISA Kit EBT-ELK2465MS

Article Name	Mouse TGF α (Transforming Growth Factor Alpha) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK2465MS
Supplier Catalog Number	ELK2465MS
Alternative Catalog Number	EBT-ELK2465MS-96, EBT-ELK2465MS-48, EBT-ELK2465MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	500 pg/mL
Range	7.82-500 pg/mL
Sensitivity	3.5 pg/mL
UniProt	P48030
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse TGF α . Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse TGF α . Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse TGF α , biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Mouse TGF α in the samples is then determined by comparing the OD of the samples to the standard curve
