Product Datasheet

Human AGR2(Anterior Gradient Protein 2) ELISA Kit EBT-ELK3052

Article Name	Human AGR2(Anterior Gradient Protein 2) ELISA Kit
Biozol Catalog Number	EBT-ELK3052
Supplier Catalog Number	ELK3052
Alternative Catalog Number	EBT-ELK3052-96, EBT-ELK3052-48, EBT-ELK3052-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	100 ng/mL
Range	1.57-100 ng/mL
Sensitivity	0.62 ng/mL
UniProt	O95994
Samples	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity, Reproductive science, Bone metabolism, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human AGR2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human AGR2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human AGR2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human AGR2 in the samples is then determined by comparing the OD of the samples to the standard curve
