Product Datasheet

Human LGMN(Legumain) ELISA Kit EBT-ELK3223

Article Name	Human LGMN(Legumain) ELISA Kit
Biozol Catalog Number	EBT-ELK3223
Supplier Catalog Number	ELK3223
Alternative Catalog Number	EBT-ELK3223-96, EBT-ELK3223-48, EBT-ELK3223-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.121 ng/mL
UniProt	Q99538
Samples	Serum, plasma, tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human LGMN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human LGMN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human LGMN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human LGMN in the samples is then determined by comparing the OD of the samples to the standard curve
