## Product Datasheet

### Rat RARa(Retinoic Acid Receptor Alpha) ELISA Kit EBT-ELK3858

Article Name	Rat RARa(Retinoic Acid Receptor Alpha) ELISA Kit
Biozol Catalog Number	EBT-ELK3858
Supplier Catalog Number	ELK3858
Alternative Catalog Number	EBT-ELK3858-96, EBT-ELK3858-48, EBT-ELK3858-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.119 ng/mL
Samples	Tissue homogenates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction, Metabolic pathway, Nutrition metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat RARa. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat RARa. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat RARa, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat RARa in the samples is then determined by comparing the OD of the samples to the standard curve
