Product Datasheet

Human AOA_H(Acyloxyacyl Hydrolase) ELISA Kit EBT-ELK3978

Article Name	Human AOA _H (Acyloxyacyl Hydrolase) ELISA Kit
Biozol Catalog Number	EBT-ELK3978
Supplier Catalog Number	ELK3978
Alternative Catalog Number	EBT-ELK3978-96, EBT-ELK3978-48, EBT-ELK3978-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.058 ng/mL
UniProt	P28039
Samples	serum, plasma, tissue homogenates, cell lysates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human AOAH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human AOAH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human AOAH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human AOAH in the samples is then determined by comparing the OD of the samples to the standard curve
