Product Datasheet

Mouse PTN(Pleiotrophin) Microsample ELISA Kit EBT-ELK3998MS

Article Name	Mouse PTN(Pleiotrophin) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK3998MS
Supplier Catalog Number	ELK3998MS
Alternative Catalog Number	EBT-ELK3998MS-96, EBT-ELK3998MS-48, EBT-ELK3998MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	500 pg/mL
Range	7.82-500 pg/mL
Sensitivity	3 pg/mL
UniProt	P63089
Samples	serum, plasma, tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Neuro science, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse PTN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse PTN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse PTN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse PTN in the samples is then determined by comparing the OD of the samples to the standard curve
