Product Datasheet

Mouse CTSA(Cathepsin A) ELISA Kit EBT-ELK4299

Article Name	Mouse CTSA(Cathepsin A) ELISA Kit
Biozol Catalog Number	EBT-ELK4299
Supplier Catalog Number	ELK4299
Alternative Catalog Number	EBT-ELK4299-96, EBT-ELK4299-48, EBT-ELK4299-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	400 pg/mL
Range	6.25-400 pg/mL
Sensitivity	2.63 pg/mL
UniProt	P16675
Samples	Serum, plasma, tissue homogenates, cell lysates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse CTSA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse CTSA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse CTSA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse CTSA in the samples is then determined by comparing the OD of the samples to the standard curve
