## Product Datasheet

### Human EEA1(Early Endosome Antigen 1) Microsample ELISA Kit EBT-ELK4379MS

Article Name	Human EEA1(Early Endosome Antigen 1) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK4379MS
Supplier Catalog Number	ELK4379MS
Alternative Catalog Number	EBT-ELK4379MS-96, EBT-ELK4379MS-48, EBT-ELK4379MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.111 ng/mL
UniProt	<a href="#">Q15075</a>
Samples	Tissue homogenates, cell lysates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human EEA1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human EEA1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human EEA1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human EEA1 in the samples is then determined by comparing the OD of the samples to the standard curve
