Product Datasheet

Human TAP1(Antigen Peptide Transporter 1) ELISA Kit EBT-ELK4394

Article Name	Human TAP1(Antigen Peptide Transporter 1) ELISA Kit
Biozol Catalog Number	EBT-ELK4394
Supplier Catalog Number	ELK4394
Alternative Catalog Number	EBT-ELK4394-96, EBT-ELK4394-48, EBT-ELK4394-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.141 ng/mL
UniProt	Q03518
Samples	Tissue homogenates, cell lysates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Immune molecule,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human TAP1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human TAP1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human TAP1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human TAP1 in the samples is then determined by comparing the OD of the samples to the standard curve
