Product Datasheet

Human SYNrg(Synergina Gamma) ELISA Kit EBT-ELK4566

Article Name	Human SYNrg(Synergina Gamma) ELISA Kit
Biozol Catalog Number	EBT-ELK4566
Supplier Catalog Number	ELK4566
Alternative Catalog Number	EBT-ELK4566-96, EBT-ELK4566-48, EBT-ELK4566-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.108 ng/mL
UniProt	Q9UMZ2
Samples	Tissue homogenates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human SYNrg. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human SYNrg. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human SYNrg, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human SYNrg in the samples is then determined by comparing the OD of the samples to the standard curve
