Product Datasheet

Mouse aCTx(Alpha-Crosslaps) ELISA Kit EBT-ELK4610

Article Name	Mouse aCTx(Alpha-Crosslaps) ELISA Kit
Biozol Catalog Number	EBT-ELK4610
Supplier Catalog Number	ELK4610
Alternative Catalog Number	EBT-ELK4610-96, EBT-ELK4610-48, EBT-ELK4610-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	6000 pg/mL
Range	93.75-6000 pg/mL
Sensitivity	26.57 pg/mL
Samples	serum, plasma, other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Bone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Mouse aCTx. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse aCTx. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse aCTx in the samples is then determined by comparing the OD of the samples to the standard curve
