Product Datasheet

Human ITGa2B(Integrin Alpha 2B) Microsample ELISA Kit EBT-ELK4630MS

Article Name	Human ITGa2B(Integrin Alpha 2B) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK4630MS
Supplier Catalog Number	ELK4630MS
Alternative Catalog Number	EBT-ELK4630MS-96, EBT-ELK4630MS-48, EBT-ELK4630MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.054 ng/mL
UniProt	P08514
Samples	Tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: CD & Adhesion molecule, Tumor immunity, Infection immunity, Hematology, .
Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human ITGa2B. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human ITGa2B. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human ITGa2B, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human ITGa2B in the samples is then determined by comparing the OD of the samples to the standard curve
