Product Datasheet

Mouse NKA(Neurokinin A) ELISA Kit EBT-ELK4878

Article Name	Mouse NKA(Neurokinin A) ELISA Kit
Biozol Catalog Number	EBT-ELK4878
Supplier Catalog Number	ELK4878
Alternative Catalog Number	EBT-ELK4878-96, EBT-ELK4878-48, EBT-ELK4878-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.61 pg/mL
UniProt	P41539
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Signal transduction, Neuro science,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Mouse NKA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse NKA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse NKA in the samples is then determined by comparing the OD of the samples to the standard curve
