Human GPR172A(G Protein Coupled Receptor 172A) Microsample ELISA Kit EBT-ELK5023MS

Article Name	Human GPR172A(G Protein Coupled Receptor 172A) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK5023MS
Supplier Catalog Number	ELK5023MS
Alternative Catalog Number	EBT-ELK5023MS-96, EBT-ELK5023MS-48, EBT-ELK5023MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	100 ng/mL
Range	1.57-100 ng/mL
Sensitivity	0.61 ng/mL
Samples	Tissue homogenates, saliva and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: CD & Adhesion molecule,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human GPR172A. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human GPR172A. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human GPR172A, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human GPR172A in the samples is then determined by comparing the OD of the samples to the standard curve
