Product Datasheet

Human FDPS(Farnesyl Diphosphate Synthase) ELISA Kit EBT-ELK5063

Article Name	Human FDPS(Farnesyl Diphosphate Synthase) ELISA Kit
Biozol Catalog Number	EBT-ELK5063
Supplier Catalog Number	ELK5063
Alternative Catalog Number	EBT-ELK5063-96, EBT-ELK5063-48, EBT-ELK5063-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	4000 pg/mL
Range	62.5-4000 pg/mL
Sensitivity	28.3 pg/mL
UniProt	P14324
Samples	Serum, plasma, tissue homogenates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human FDPS. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human FDPS. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human FDPS, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human FDPS in the samples is then determined by comparing the OD of the samples to the standard curve
