Product Datasheet

Human BMP5(Bone Morphogenetic Protein 5) Microsample ELISA Kit EBT-ELK5119MS

Article Name	Human BMP5(Bone Morphogenetic Protein 5) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK5119MS
Supplier Catalog Number	ELK5119MS
Alternative Catalog Number	EBT-ELK5119MS-96, EBT-ELK5119MS-48, EBT-ELK5119MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.2 pg/mL
UniProt	P22003
Samples	Serum, plasma, tissue homogenates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction, Tumor immunity, Developmental science, Bone metabolism, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human BMP5. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human BMP5. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human BMP5, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human BMP5 in the samples is then determined by comparing the OD of the samples to the standard curve
