Product Datasheet

Mouse SPB(Surfactant Associated Protein B) ELISA Kit EBT-ELK5312

Article Name	Mouse SPB(Surfactant Associated Protein B) ELISA Kit
Biozol Catalog Number	EBT-ELK5312
Supplier Catalog Number	ELK5312
Alternative Catalog Number	EBT-ELK5312-96, EBT-ELK5312-48, EBT-ELK5312-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	50 ng/mL
Range	0.79-50 ng/mL
Sensitivity	0.33 ng/mL
UniProt	P50405
Samples	Tissue homogenates, cell lysates, cell culture supernates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity, Infection immunity, Pulmonology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse SPB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse SPB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse SPB, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse SPB in the samples is then determined by comparing the OD of the samples to the standard curve
