Product Datasheet

Mouse ACV-A(Activin A) ELISA Kit EBT-ELK5382

Article Name	Mouse ACV-A(Activin A) ELISA Kit
Biozol Catalog Number	EBT-ELK5382
Supplier Catalog Number	ELK5382
Alternative Catalog Number	EBT-ELK5382-96, EBT-ELK5382-48, EBT-ELK5382-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	600 pg/mL
Range	9.38-600 pg/mL
Sensitivity	5 pg/mL
UniProt	Q04998
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Endocrinology, Reproductive science, Hormone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse ACVA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse ACVA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse ACVA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse ACVA in the samples is then determined by comparing the OD of the samples to the standard curve
