## Product Datasheet

### Human NKX3-1(NK3 Homeobox Protein 1) ELISA Kit EBT-ELK5390

Article Name	Human NKX3-1(NK3 Homeobox Protein 1) ELISA Kit
Biozol Catalog Number	EBT-ELK5390
Supplier Catalog Number	ELK5390
Alternative Catalog Number	EBT-ELK5390-96, EBT-ELK5390-48, EBT-ELK5390-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.054 ng/mL
UniProt	<a href="#">Q99801</a>
Samples	tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human NKX3-1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human NKX3-1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human NKX3-1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human NKX3-1 in the samples is then determined by comparing the OD of the samples to the standard curve
