Product Datasheet

Cattle CRP(C Reactive Protein) ELISA Kit EBT-ELK5618

Article Name	Cattle CRP(C Reactive Protein) ELISA Kit
Biozol Catalog Number	EBT-ELK5618
Supplier Catalog Number	ELK5618
Alternative Catalog Number	EBT-ELK5618-96, EBT-ELK5618-48, EBT-ELK5618-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Bovine
Concentration	400 ng/mL
Range	6.25-400 ng/mL
Sensitivity	2.43 ng/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity, Infection immunity, Cardiovascular biology, Rheumatology, .
Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cattle CRP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle CRP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cattle CRP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cattle CRP in the samples is then determined by comparing the OD of the samples to the standard curve
