## Product Datasheet

### Pig CCK(Cholecystokinin) ELISA Kit EBT-ELK5632

Article Name	Pig CCK(Cholecystokinin) ELISA Kit
Biozol Catalog Number	EBT-ELK5632
Supplier Catalog Number	ELK5632
Alternative Catalog Number	EBT-ELK5632-96, EBT-ELK5632-48, EBT-ELK5632-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	4.51 pg/mL
UniProt	<a href="#">P01356</a>
Samples	Serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Tumor immunity, Endocrinology, Neuro science, Hepatology, Hormone metabolism, . Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Pig CCK. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig CCK. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig CCK in the samples is then determined by comparing the OD of the samples to the standard curve
