## Product Datasheet

### Dog IFN $\gamma$ (Interferon Gamma) ELISA Kit EBT-ELK5661

Article Name	Dog IFN $\gamma$ (Interferon Gamma) ELISA Kit
Biozol Catalog Number	EBT-ELK5661
Supplier Catalog Number	ELK5661
Alternative Catalog Number	EBT-ELK5661-96, EBT-ELK5661-48, EBT-ELK5661-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Canine
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.9 pg/mL
UniProt	<a href="#">P42161</a>
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Infection immunity, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog IFN $\gamma$ . Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog IFN $\gamma$ . Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog IFN $\gamma$ , biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm  $\pm$  10nm. The concentration of Dog IFN $\gamma$  in the samples is then determined by comparing the OD of the samples to the standard curve
