## Product Datasheet

### Dog TGFb1(Transforming Growth Factor Beta 1) ELISA Kit EBT-ELK5702

Article Name	Dog TGFb1(Transforming Growth Factor Beta 1) ELISA Kit
Biozol Catalog Number	EBT-ELK5702
Supplier Catalog Number	ELK5702
Alternative Catalog Number	EBT-ELK5702-96, EBT-ELK5702-48, EBT-ELK5702-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Canine
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.5 pg/mL
UniProt	<a href="#">P54831</a>
Samples	Serum, platelet-poor plasma, tissue homogenates, cell culture supernates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Infection immunity, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog TGFb1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog TGFb1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog TGFb1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Dog TGFb1 in the samples is then determined by comparing the OD of the samples to the standard curve
