Product Datasheet

Dog I-PTH(IntactParathormone) ELISA Kit EBT-ELK6044

Article Name	Dog I-PTH(IntactParathormone) ELISA Kit
Biozol Catalog Number	EBT-ELK6044
Supplier Catalog Number	ELK6044
Alternative Catalog Number	EBT-ELK6044-96, EBT-ELK6044-48, EBT-ELK6044-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Canine
Concentration	800 pg/mL
Range	12.5-800 pg/mL
Sensitivity	3.98 pg/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway, Endocrinology, Hormone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog I-PTH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog I-PTH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog I-PTH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Dog I-PTH in the samples is then determined by comparing the OD of the samples to the standard curve
