## Product Datasheet

### **Pig F1+2(Prothrombin Fragment 1+2) ELISA Kit EBT-ELK6049**

Article Name	Pig F1+2(Prothrombin Fragment 1+2) ELISA Kit
Biozol Catalog Number	EBT-ELK6049
Supplier Catalog Number	ELK6049
Alternative Catalog Number	EBT-ELK6049-96, EBT-ELK6049-48, EBT-ELK6049-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	400 ng/mL
Range	6.25-400 ng/mL
Sensitivity	2.6 ng/mL
Samples	Serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Hematology. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig F1+2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig F1+2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig F1+2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig F1+2 in the samples is then determined by comparing the OD of the samples to the standard curve
