Product Datasheet

Human OXM(Oxyntomodulin) ELISA Kit EBT-ELK6538

Article Name	Human OXM(Oxyntomodulin) ELISA Kit
Biozol Catalog Number	EBT-ELK6538
Supplier Catalog Number	ELK6538
Alternative Catalog Number	EBT-ELK6538-96, EBT-ELK6538-48, EBT-ELK6538-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	500 ng/mL
Range	7.82-500 ng/mL
Sensitivity	2.82 ng/mL
Samples	Serum, plasma and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Metabolic pathway, Endocrinology, Gastroenterology, Hormone metabolism, . Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human OXM. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human OXM. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human OXM in the samples is then determined by comparing the OD of the samples to the standard curve
