### Rat IL33(Interleukin 33) Microsample ELISA Kit EBT-ELK6541MS

Article Name	Rat IL33(Interleukin 33) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK6541MS
Supplier Catalog Number	ELK6541MS
Alternative Catalog Number	EBT-ELK6541MS-96, EBT-ELK6541MS-48, EBT-ELK6541MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	500 pg/mL
Range	7.82-500 pg/mL
Sensitivity	3 pg/mL
UniProt	<a href="#">Q66H70</a>
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Infection immunity, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat IL33. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat IL33. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat IL33, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat IL33 in the samples is then determined by comparing the OD of the samples to the standard curve
