Product Datasheet

Rat GDF1(Growth Differentiation Factor 1) Microsample ELISA Kit EBT-ELK6713MS

Article Name	Rat GDF1(Growth Differentiation Factor 1) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK6713MS
Supplier Catalog Number	ELK6713MS
Alternative Catalog Number	EBT-ELK6713MS-96, EBT-ELK6713MS-48, EBT-ELK6713MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	2000 pg/mL
Range	31.25-2000 pg/mL
Sensitivity	12.8 pg/mL
UniProt	Q1HI69
Samples	Serum, plasma and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Neuro science, Developmental science, Genetic science, .
Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat GDF1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat GDF1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat GDF1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat GDF1 in the samples is then determined by comparing the OD of the samples to the standard curve
