Rat Surv(Survivin) ELISA Kit EBT-ELK9199

Article Name	Rat Surv(Survivin) ELISA Kit
Biozol Catalog Number	EBT-ELK9199
Supplier Catalog Number	ELK9199
Alternative Catalog Number	EBT-ELK9199-96, EBT-ELK9199-48, EBT-ELK9199-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	6.1 pg/mL
Samples	tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat Surv. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat Surv. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat Surv, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat Surv in the samples is then determined by comparing the OD of the samples to the standard curve</p>
