Product Datasheet

Mouse VAP-1(VascularAdhesion Protein 1) Microsample ELISA Kit EBT-ELK9608MS

Article Name	Mouse VAP-1(VascularAdhesion Protein 1) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK9608MS
Supplier Catalog Number	ELK9608MS
Alternative Catalog Number	EBT-ELK9608MS-96, EBT-ELK9608MS-48, EBT-ELK9608MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.1 ng/mL
UniProt	O70423
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Immunology, Signal Transduction. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse VAP-1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse VAP-1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse VAP-1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse VAP-1 in the samples is then determined by comparing the OD of the samples to the standard curve
