Rat VAP-1(VascularAdhesion Protein 1) Microsample ELISA Kit EBT-ELK9634MS

Article Name	Rat VAP-1(VascularAdhesion Protein 1) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK9634MS
Supplier Catalog Number	ELK9634MS
Alternative Catalog Number	EBT-ELK9634MS-96, EBT-ELK9634MS-48, EBT-ELK9634MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.1 ng/mL
UniProt	O08590
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes	Assay Type: Sandwich. Assay length: 3.5h. Research Area: Neuroscience,Signal Transduction. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat VAP-1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat VAP-1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat VAP-1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat VAP-1 in the samples is then determined by comparing the OD of the samples to the standard curve
