Horse Amya(Amylase Alpha) ELISA Kit EBT-ELK9655

Article Name	Horse Amya(Amylase Alpha) ELISA Kit
Biozol Catalog Number	EBT-ELK9655
Supplier Catalog Number	ELK9655
Alternative Catalog Number	EBT-ELK9655-96, EBT-ELK9655-48, EBT-ELK9655-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Equine
Concentration	100 ng/mL
Range	1.57-100 ng/mL
Sensitivity	0.68 ng/mL
Samples	Serum, plasma, saliva and other biological fluids.

Application Notes	Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase, Infection immunity, Hepatology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Horse Amya. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Horse Amya. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Horse Amya, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Horse Amya in the samples is then determined by comparing the OD of the samples to the standard curve
