Product Datasheet

Rabbit PGR(Progesterone Receptor) ELISA Kit EBT-ELK9680

Article Name	Rabbit PGR(Progesterone Receptor) ELISA Kit
Biozol Catalog Number	EBT-ELK9680
Supplier Catalog Number	ELK9680
Alternative Catalog Number	EBT-ELK9680-96, EBT-ELK9680-48, EBT-ELK9680-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rabbit
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.132 ng/mL
UniProt	P06186
Samples	Tissue homogenates, cell lysates and other biological fluids

Application Notes	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Reproductive science,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rabbit PGR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rabbit PGR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rabbit PGR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rabbit PGR in the samples is then determined by comparing the OD of the samples to the standard curve</p>
