Product Datasheet

Recombinant Human IL-4 (C-6His) EBT-EPT247

Article Name	Recombinant Human IL-4 (C-6His)
Biozol Catalog Number	EBT-EPT247
Supplier Catalog Number	EPT247
Alternative Catalog Number	EBT-EPT247-10
Manufacturer	ELK Biotechnology
Category	Proteine/Peptide
Product Description	Recombinant Human Interleukin-4 is produced by our Mammalian expression system and the target gene encoding His25-Ser153 is expressed with a 6His tag at the C-terminus....
Molecular Weight	Molecular weight: 16 KDa. Apparent molecular weight: 18 KDa, reducing conditions
UniProt	P05112
Purity	Greater than 95% as determined by reducing SDS-PAGE.

Application Notes	Redissolve: Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.. Endotoxin: Less than 0.1 ng/µg (1 EU/µg) as determined by LAL test. Biological activity: Loaded Cynomolgus IL-4RA-Fc(CatC939) on Protein A Biosensor, can bind Human IL-4-His(CatCX88) with an affinity constant of 0.33 nM as determined in BLI assay.. Background: Interleukin-4 (IL-4) is a pleiotropic cytokine that regulates diverse T and B cell responses including cell proliferation, survival and gene expression. IL-4 is produced by mast cells, T cells, and bone marrow stromal cells. IL-4 regulates the differentiation of naive CD4+ T cells into helper Th2 cells, characterized by their cytokine-secretion profile that includes secretion of IL-4, IL-5, IL-6, IL-10, and IL-13, which favor a humoral immune response. Another dominant function of IL-4 is the regulation of immunoglobulin class switching to the IgG1 and IgE isotypes. Excessive IL-4 production by Th2 cells has been associated with elevated IgE production and allergic response
