| Product Description        | Chlorotriethylsilane is used in the preparation of potent silylating agent and lewis acid catalyst. Chlorotriethylsilane derivatived ethers have been shown to be more stable towards hydrolysis than are trimethyl ethers. Form: Clear Colorless Oil Solu... |
| Molecular Weight           | 150.72                                                                                                                                                                                                                                                        |
| Form                       | Clear Colorless Oil                                                                                                                                                                                                                                           |
