| Product Description        | Organic reagent used to synthesize phthalates. Synonyms: 1,2-Benzenedicarboxylic Acid, M 2, NSC 5348, Sunftal 20, o-Benzenedicarboxylic Acid, o-Carboxybenzoic Acid, o-Dicarboxybenzene CAS No: 88-99-3 Molecular Formula: C <sub>8</sub> H <sub>6</sub> O <sub>4</sub> Molecular Weight: 166.13... |
| Molecular Weight           | 166.13                                                                                                                                                                                                                                                                                              |
| Purity                     | 99% (GC)                                                                                                                                                                                                                                                                                            |
| Form                       | White solid                                                                                                                                                                                                                                                                                         |
