| Category                   | Biochemikalien                                                                                                                                                                                                                                                            |
| Product Description        | A major metabolite of Thioridazine (THD 2-SO <sub>2</sub> ). Impurity: Thioridazine EP Impurity E Synonyms: 10-[2-(1-Methyl-2-piperidiny)ethyl]-2-(methylsulfonyl)-10H-phenothiazine, (+/-)-Thioridazine-2-sulfone, Imagotan, Inofal, Psychoson, Sulforidazine, Sulpho... |
| Molecular Weight           | 402.57                                                                                                                                                                                                                                                                    |
| Purity                     | As reported                                                                                                                                                                                                                                                               |
| Form                       | Off-white to dark yellow solid                                                                                                                                                                                                                                            |
