| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Application                | ELISA, WB                                                                                                                                                                                                                                                     |
| Product Description        | Source: Recombinant protein corresponding to aa1-323 from human Oligodendrocyte Lineage Transcription Factor 2, fused to His-Tag and SUMO-Tag at N-terminal, expressed in E. coli. Molecular Weight: ~46.1kD Applications: Suitable for use in ELISA, West... |
| Molecular Weight           | 46.1                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q13516</a>                                                                                                                                                                                                                                        |
| Purity                     | 95%.                                                                                                                                                                                                                                                          |
| Form                       | Supplied as lyophilized powder from 20mM Tris, 150mM sodium chloride, pH 8.0, 0.01% sarcosyl, 5% trehalose. Reconstitute with sterile 20mM Tris, 150mM sodium chloride, pH 8.0 to a concentration of 0.1-1mg/ml. Do not vortex.                               |
