| Alternative Catalog Number | USB-161174-100                                                                                                                                                                                      |
| Manufacturer               | US Biological                                                                                                                                                                                       |
| Category                   | Biochemikalien                                                                                                                                                                                      |
| Product Description        | 4-Acetamidophenyl Glycidyl Ether is an intermediate in the preparation of cardioselective beta-adrenergic receptor antagonists. Solubility: Chloroform, Dichloromethane, Ethyl Acetate, Methanol... |
| Molecular Weight           | 207.23                                                                                                                                                                                              |
| Form                       | Supplied as a White Powder                                                                                                                                                                          |
| CAS Number                 | [6597-75-7]                                                                                                                                                                                         |
