| Product Description        | 9,10-Anhydro-8-desacetyl-8-carboxy Daunorubicin is an impurity of Doxorubicin (D558000), an antineoplastic agent. Molecular Formula: C <sub>26</sub> H <sub>26</sub> ClNO <sub>10</sub> Solubility: Methanol (Slightly), Water (Slightly) Molecular Weight: 547.94000000000005 Storage and Stabi... |
| Molecular Weight           | 547.94                                                                                                                                                                                                                                                                                              |
| Form                       | Supplied as a Red Solid                                                                                                                                                                                                                                                                             |
