| Product Description        | Allo-3alpha-tetrahydro Cortisol 3-O-beta-D-Glucuronide Methyl Ester is a 3-monoglucuronide conjugate of Allo-3alpha-tetrahydrocortisol (A548500). Molecular Formula: C <sub>28</sub> H <sub>44</sub> O <sub>11</sub> Solubility: Methanol Molecular Weight: 556.64 Storage and Stability: Store ... |
| Molecular Weight           | 556.64                                                                                                                                                                                                                                                                                              |
| Form                       | Supplied as a Beige Solid                                                                                                                                                                                                                                                                           |
