| Product Description        | Boc-trans-4-aminocyclohexanecarboxylic acid is a reagent to synthesize N-myristoyltransferase and CD38 inhibitors. Molecular Formula: C <sub>12</sub> H <sub>21</sub> NO <sub>4</sub> Molecular Weight: 243.3 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge ... |
| Molecular Weight           | 243.3                                                                                                                                                                                                                                                                                               |
