| Product Description        | D-erythro-Sphingosine-C20 is an antagonist in cell-signaling functions however it displays an opposite modulation of cathepsin D. Molecular Formula: C <sub>20</sub> H <sub>41</sub> NO <sub>2</sub> Molecular Weight: 327.55 Storage and Stability: Store at -20C. For maximum recovery of prod... |
| Molecular Weight           | 327.55                                                                                                                                                                                                                                                                                              |
