| Product Description        | Fusarisetin A is an unusual pentacyclic metabolite and an inhibitor of acini. Molecular Formula: C <sub>22</sub> H <sub>31</sub> NO <sub>5</sub> Molecular Weight: 389.49<br>Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior to removing ... |
| Molecular Weight           | 389.49                                                                                                                                                                                                                                                                                                 |
